Compatible with IIe, II+ and IIGS

Now you can tap into a world of information—without draining your resources. Our DataLink™ modem lets your Apple IIGS, IIe or II+ communicate with other computers, download free software from networks and bulletin boards, access database services and more. For a remarkably low price.

The World at Your Fingertips

With the DataLink modem, you'll be able to draw information from thousands of databases. Send and receive electronic mail—even overseas. Join clubs and bulletin boards to exchange software or solve computing problems with other Apple users. Download free public domain software. And share files with personal computers and mainframes.

DataLink offers high speed, reliable telecommunications for your Apple IIe, IIGS or II+. DataLink is the newest, most advanced internal 1200 BAUD modem available for the Apple. A design so advanced it couldn't have been made before mid 1987.

There's Nothing Missing on DataLink

Unlike most other modems, Data-Link comes with its own easy-to-use

communications software in ROM and disk that supports macros, file transfers, on-line time display, data capture and datascope mode. The software also allows you to store hundreds of phone numbers for auto-dialing and log on.

A compact design allows DataLink to fit in any slot—including slots 1 and 2 of the IIGS with a cooling fan installed. DataLink operated at 1200 or 300 baud. Built-in diagnostics check for accuracy of data transmission, and DataLink lets you track the progress of calls either electronically or via an on-board speaker.

Introductory Offers from Popular Networks Included

When you purchase DataLink, you'll get a fee-waived membership and usage credit to The Source worth $64.95. $60.00 worth of free on-line time from NewsNet. A free $50.00 subscription to the Official Airline Guide, and a free subscription to the GEnie network worth $18.00!

Features

- 1200 and 300 baud
- Hayes® "AT" command compatible but with more commands

- 1200 or 300 BPS half or full duplex

- Bell 212A and 103 compatible

Now you can tap into a world of information — without draining your resources. Our DataLink™ modem lets your Apple IIGS, IIe or II+ communicate with other computers, download free software from networks and bulletin boards, access database services and more. For a remarkably low price.

The world at your fingertips.

With the DataLink modem, you'll be able to draw information from thousands of databases. Send and receive electronic mail — even overseas. Join clubs and bulletin boards to exchange software or solve computing problems with other Apple users. Download free public domain software. And share files with personal computers and mainframes.

There's nothing missing on DataLink.

Unlike the Smartmodem®, DataLink comes with its own easy-to-use communications software in ROM and on disk that supports macros, file transfers, on-line time display, data capture and datascope mode. The software also allows you to store hundreds of phone numbers for auto dialing and log on.

Because DataLink is 100% Super Serial Card compatible, you can also run virtually all other communication software, including Point-to-Point, Apple Access and ASCII Express, to name a few.

The compact design allows DataLink to fit in any slot — including slots 1 and 2 of the IIGS with a cooling fan installed. DataLink operates at 1200 or 300 baud. Built-in diagnostics check for accuracy of data transmission, and DataLink lets you track the progress of calls either electronically or via an on-board speaker.

Introductory offers from popular networks included.

When you purchase DataLink, you'll get a fee-waived membership to The Source worth $49.95. $60.00 worth of free on-line time from NewsNet. A free $50.00 subscription to the Official Airline Guide. A free subscription to the GEnie network worth $18.00! And information on MCI Mail.
