SchoolBus: File Sharing (2/97)

Article Created: 15 November 1984
Article Reviewed/Updated: 12 February 1997

TOPIC ---

This article discusses file sharing using the BOS (Bus Operating System).

DISCUSSION --

The BOS (Bus Operating System) will not allow different users to access the
files of a single user. A student cannot save a file to disk so that another
student can access that file. BOS only allows the student to save files and
retrieve them under his name and will not allow more than one user to have the
same name.
