### Introduction

Springboard, first and foremost, is dedicated to creating software products that provide an excellent reason for people to use a computer. We design products to satisfy users with a wide variety of needs, skill levels and computer types, plus take advantage of state-of-the-art technology. We have complete confidence in our software and back this with a **Money-Back Guarantee** on all copy-protected products. All of our products can be found at your favorite software store. If you can't find a program you want, you can order directly from Springboard by phone (1-800-854-6301) or by mail (use the order form included).

## The Newsroom Pro™

An advanced version of The Newsroom™ offering more sophistication for the professional user (IBM only)

The Newsroom Pro gives you the power to create newsletters quickly, efficiently and with professional results while taking advantage of the IBM computer.

- Use the function keys for faster access to all areas of activity.
- Select from over 2000 pieces of pre-designed clip art to bring your stories to life.
- Modifying and combining art is quick and easy. Resize it, layer it, flip it vertically or horizontally. Powerful drawing and editing tools let you make subtle or dramatic changes. Even create your own clip art if you choose.
- Enter your text and photos simultaneously while working down one of two columns. The text wraps around the photos and will rearrange itself if you move a photo.
- You control all design elements. Choose from a variety of type styles and sizes. Even change the spacing between the lines!
- The Newsroom Pro is not copy protected which allows easy installation onto the hard disk. You may configure different versions or make backup copies.

- The Newsroom Pro supports over 55 popular business printers.

SPRINGBOARD

# THE NEWSROOM • PRO

Design, create & print out your own newspaper with sophisticated results. The Newsroom Pro includes over 2000 graphics, is not copy protected, works with laser printers and offers you many additional advanced features.

# The Newsroom™

Design, create and print out your very own newspaper

The Newsroom gives you everything you need to create your own newspaper for your family, club, class, school or business.

- Completely control all design elements of your paper.
- You get over 600 pieces of clip art in The Newsroom. You can combine them, alter them, or even create your own unique pictures to use in your paper.
- You can select from five fonts to enter text with an easy-to-use Word Processor. Once you write your stories, you can reposition a photo and the text will automatically wrap around it.

- If you have a modem, you can send and receive text and pictures between previously incompatible IBM, Apple or Commodore computers.
- You can print your newspaper out on any popular computer printer using letter or legal size paper.

Over 600 pieces of clip art included. Here's just a sample!

Use your imagination along with the creativity of The Newsroom to design a wide variety of newspapers.

NEW! A Quick Reference Guide to help you through the basic steps needed to create each part of your newspaper.

# Graphics Expander™

## For Owners of The Print Shop™ and Print Master™ for IBM

### Volume 1

Dramatically expand the creativity of The Print Shop and Print Master! Now you can make your banners, signs, cards and letterhead look better than ever.

- Enhance your creativity with more than 300 wonderful new graphics that are packed with personality.
- Powerful drawing and editing tools let you combine and modify graphics or create your own. Even add text for a personal touch.
- Turn hi-res pictures from other sources into usable graphics for The Print Shop or Print Master.

Over 300 graphics included.

# Rainbow Painter™

Multiple skill level games  
Ages 4-10

Rainbow Painter lets children choose from a color picture menu that offers ten categories of fun line drawings or they can create their own pictures in a variety of styles. Fifty different brushes and thousands of color patterns offer an almost infinite variety of creative possibilities for children to choose from. Children develop fine motor skills while having fun creating, drawing and painting. Your child will be entertained and challenged for hours by Rainbow Painter.

# Mask Parade™

## Multiple skill level games

### Ages 4-12

Mask Parade is an exceptionally unique program that allows children to use the computer to design their own masks, hats, glasses, jewelry, badges, accessories (and more) and then actually print them out and wear them. They just combine any of the many fun elements provided by the computer, or create their own designs. Once the design is printed out, it can be colored, cut out and worn for hours of creative fun. Icons make it easy and fast to change faces and costumes at the press of a key on the computer keyboard.

## Puzzle Master™

Multiple skill level games  
Ages 4 and up

Puzzle Master lets children and puzzle lovers choose from an assortment of existing pictures or they can create their own by using powerful artistic drawing tools. Each picture can then be divided into a puzzle cut into 2 to 800 pieces. Puzzles can be made as easy or difficult as desired. Puzzle lovers will enjoy fully challenging their skills while children can progressively develop creativity and problem-solving ability by designing and reconstructing less difficult puzzles.

# Early Games for Young Children™

Multiple skill level games  
Ages 2½-6

Early Games for Young Children is a collection of nine individual learning games that teach your child a variety of basic skills and are a fun introduction to computer learning. They help your child learn shapes and letters, how to add and subtract numbers, draw creatively, type with the computer, say the alphabet and spell their own names. The picture menu makes it easy for children to select and play games by themselves, so no adult supervision is necessary.

## Easy as ABC™ Multiple skill level games Ages 3-6

Easy as ABC is a series of five games that introduce the alphabet in a variety of fun and engaging ways. Children learn letter recognition, alphabetical sequence and upper and lower case.

A Picture Menu makes it easy for children to select from Match Letters, Dot to Dot, Leapfrog, Lunar Letters or Honey Hunt.

A diskful of colorful animated graphics such as jumping frogs and buzzing bees keep children fascinated. And the more they play, the more they learn.

**Stickers™**  
**Multiple skill level games**  
**Ages 4-12**

Stickers encourages your child's creativity while improving problem-solving skills. There are 100 sticker pictures in ten different fun categories. Children learn to distinguish and use many shapes, combining them to create a sticker picture. They select a sticker, color it, rotate it, position it and drop it into a matching shape in an imaginative sticker picture. In the Sticker Playground, children are encouraged to create an infinite variety of their own stickers with the Sticker Maker.

## Fraction Factory™

### Multiple skill level games

### Ages 8-14

Fraction Factory makes learning fractions easy and fun. Children learn to describe fractions, find equal values with different denominators, multiply whole numbers by a fraction, add fractions to fractions, and subtract fractions from fractions. Colorful graphics and musical sounds help children understand what the numbers mean. If your child has difficulty, increasingly-more-helpful hints will appear until your child understands the concept and calculates the correct answer.

### Concepts & Skills Presented:

- Identification of numerator & denominator.
- Visualizing equivalent fractions.
- Reinforces concept of parts of a whole.
- Addition of fractions.
- Subtraction of fractions.

## Early Games for Young Children™

Ages 2½ - 6

Early Games for Young Children is a collection of eight individual games that teach your child a variety of basic skills and a fun introduction to computer learning. Children learn to distinguish shapes, recognize letters, say the alphabet, count, add, subtract and even spell their names!

The picture menu makes it easy for children to select and play by themselves.

Multiple skill levels keep children interested while they learn at their own pace.

## Easy As ABC™

Ages 3 - 6

Learning the alphabet is a wonderful new adventure with Easy As ABC. Five fun games introduce letter recognition, alphabetical sequence and upper/lower case letters. A diskful of animated graphics such as jumping frogs and buzzing bees keep children fascinated. Children can play every one of the games before they know how to read — so no adult supervision is needed. The more they play, the more they learn.
