

Limited Warranty & Disclaimer

Applied Engineering warrants the RamFactor against defects in material and workmanship for a period of 1 year from the date of original retail purchase. Applied Engineering also warrants that, under normal use, the magnetic media on which the included $\mathcal{A}E$ software is stored is free from defects in materials and workmanship for a period of 30 days from the date of original purchase. Any misuse, abuse, or non- $\mathcal{A}E$ authorized alteration, modification and/or repair to the Applied Engineering product will void the warranty. This warranty will also be void if you use the $\mathcal{A}E$ product for any other purpose than its intended use. If you discover a defect, Applied Engineering will, at its option, repair or replace only the Applied Engineering product, provided you return the product during the warranty period, transportation prepaid, to Applied Engineering.

This warranty applies to the original retail purchaser only. Therefore, please include a copy of the original invoice or a small service charge may be applied. If the product is to be sent to Applied Engineering by mail, the purchaser will insure the package or assume full responsibility for loss or damage during shipping. Prior to returning the product for warranty consideration, call Applied Engineering Technical Support for a Return Material Authorization (RMA) number and shipping instructions.

Even though Applied Engineering has tested the software and reviewed the documentation, Applied Engineering makes no warranty or representation, either express or implied, with respect to the manual or the software; their quality, performance, merchantability, or fitness for a particular purpose. As a result, the software and manual are sold "as is," and you, the purchaser, are assuming the entire risk as to their quality and performance.

In no event will Applied Engineering be liable for loss or damages of any kind caused either directly or indirectly by the use or possession of its products, even if advised of the possibility of such damages. The Applied Engineering Warranty is for the Applied Engineering Product itself. In particular, Applied Engineering shall have no liability for any other equipment used in conjunction with Applied Engineering products nor for programs or data stored in or used with Applied Engineering products, including the costs of recovering such equipment, programs, or data.

The warranty and remedies set forth above are exclusive and in lieu of all others, oral or written, express or implied. No Applied Engineering dealer, agent, or employee is authorized to make any modification, extension, or addition to this warranty.

This manual and the software (computer programs) described herein are copyrighted by Applied Engineering with all rights reserved. Under the copyright laws, this manual or the programs may not be copied, in whole or in part, without the written consent of Applied Engineering, except in the normal use of the software or to make an archival copy. This exception does not allow copies to be made for others, whether or not sold, but all of the materials purchased (with all archive copies) may be sold, loaned, or given to another person. Under the law, copying includes translating into another language or format. You may use this software on any computer owned by you but extra copies cannot be made for this purpose.

Applied Engineering cannot guarantee that you will receive notice of revisions to the software, documentation, or products described in this manual. Be sure to check with your dealer or Applied Engineering for information on possible updates. However, Applied Engineering reserves the right to make any improvements to Applied Engineering products without any responsibility toward upgrading previously released products.
