S	Press any key to continue.
1	Select option 1 (Copy Files) from the FID main menu.
FID	Filename of next file to copy.
S	Press any key to continue.
9	Select option 9 (Quit) from the FID main menu.
CATALOG	DOS command to list the directory of the destination disk.

Following is another example text file. This one will copy all files on the source disk to the destination disk:

Contents of Text file	Comments
BRUN INSTALL DOS	Installs the modified image of DOS 3.3 on the RAMdisk.
MON C,I,O	Use this line to monitor the program execution sequence on the screen.
BRUN FID	Executes the FID program.
1	Selects option 1 (Copy Files) from the FID main menu.
6	Specifies slot 6 as the source slot.
1	Specifies drive 1 as the source drive
7	Specifies slot 7 as the destination slot.
1	Specifies drive 1 as the destination drive.
=	Wildcard character; copies all files on the source disk.
N	Cancels individual file prompting.

After customizing your own COPYM text file, save the file to a disk containing all the files you want to copy to the RAMdisk. Be sure to include FID. Then create the following 'HELLO' program:
