

SEQUENTIAL SYSTEMS

January 27, 1993

Dear Valued Customer:

Thank you for your interest in discQUEST.

Enclosed is a list of titles that you requested. In addition to those titles, we have added "Total Baseball", "The International Wine Guide", "The New England Journal of Medicine" and "1991 Medical Yearbook". The prices of these titles are not yet available but should be in the same range as the original titles. The addition of an encyclopedia is expected soon.

A new and exciting feature that has just been added is music CD controller software. Now you can play any music CD with complete select, track, and repeat control.

Also, the new discQUEST is in color! If you have a color monitor you may now view CD-ROM images in full color quickly and easily!

As requested, I have enclosed prices for different available discQUEST packages. For a limited time, buy and register your copy of discQUEST and you will receive all software upgrades free of charge through May 1994!

To order your copy of discQUEST call 1-800-759-4549.
