Slavarian is a rich and beautiful language, which nevertheless possesses an archaic and unwieldy grammatical system that may seem extremely difficult to the beginner. Since this phrasebook is intended only as an emergency guide to the unprepared wayfarer, we shall reveal only a rudimentary overview of grammar. Nowhere in Slavaria shall the visitor be required to say anything more complicated than the expressions above. Indeed, any other attempt at communication, even a simple "Dobry den" will not be understood, as the following grammar and vocabulary is provided only to allow the help the visitor understand Slavarian speech.

Note to Slavarians:

Muzete opravdu mluvit cesky v teto hre? Bohuzel ne (muzete rici jenom par slov, jako na priklad "ano", "ne", "smrt krali", "ahoj", atd.). Cestina je jeden z nejkrasnejsich solanskych jazyku, a radi bychom jej pouzili, ale na to bychom potrebovali pocitat s vetsi pameti.

Treba jednou napiseme nejakou hru jen cesky! Co rikate?
