## INSTANT APPLEWORKS™

Now, you can have **APPLEWORKS** *built-in* your APPLE //e™. With our programming service, your copy of **APPLEWORKS**, and the **quikLoader**™, your computer can be ready within 2 seconds after applying power.

After receiving your order, we will immediately send you a kit containing everything you'll need. (Units purchased through dealers will contain the kit). Copy your original **APPLEWORKS** program onto the disks included in the kit. Configure the program the way you want it used, and return it to us in the envelope provided. We will program the necessary "chips", install them in the **quikLoader**, verify proper operation, and rush it to you. When you receive it, just plug it into *any* peripheral slot. No more searching for your disks, waiting for the startup disk to load, swapping to the program disk, and waiting even longer. The quikLoader is faster and more reliable than even a hard disk drive. Updates should be no problem, as the "chips" are re-programmable.

**quikLoader**— \$179.50  
programming service— 89.50  
Total— \$269.00
