# FLYING COLORS<sup>TM</sup>

COMPUTER GRAPHICS SOFTWARE

# FLYING COLORS™

Create spectacular color graphics on your home computer. Use any input device you want. Joysticks. Paddles. Anything that can move the cursor around. FLYING COLORS™ features the easiest screen menu you'll ever see. Pick the

function you want and draw. Thick lines or thin.

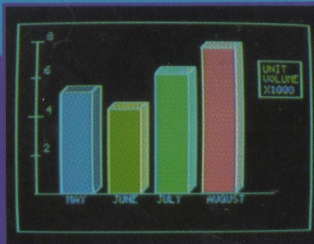

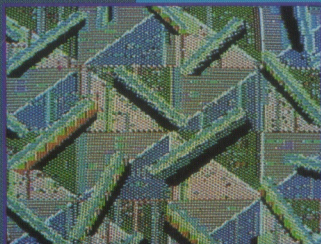

Automatic circles or boxes of any size. Erase. Fill. Use "micro" mode for exacting detail work or paint with the broad color brush for eye-popping graphics. Choose from a palette of vibrant colors. Design graphics for your own video games. Create slide shows with our unique projection feature. Store and retrieve from disk even the most complex drawings in seconds.

What are you waiting for? Let those colors fly.
